Riyadh, Saudi Arabia

Categories and Specification Examples

01 | PAINT PROTECTION FILM

Transparent films for vehicle paint protection. Product layers, thicknesses, and roll lengths vary by item and supplier.

Specifications are reviewed for each request

Product requirements are confirmed with the customer before quotation.

02 | AUTOMOTIVE WINDOW FILMS

Films in different shades and properties. The required shade and size are confirmed when preparing a quote.

Product categories seen in sourcing materials

Matte | Glossy black | Windshield | Numbered shades

Required specifications and sizes are confirmed for each request.

Before confirming an order

1. **Select the item**
   Choose PPF or window film and the requested shade or finish.

2. **Share specifications**
   Provide size, thickness, roll length, and intended use.

3. **Confirm details**
   Availability, specifications, and packaging are checked before confirming a quote.
